Dependable and detail-oriented professional with hands-on experience in customer support, data entry, and administrative work. At Concentrix, I assisted technicians and customers in a fast-paced, on-site environment, resolving concerns with clear communication and a solution-focused approach. As a working scholar at the University of Cebu for nearly two years, I handled data entry and administrative tasks accurately and efficiently while pursuing studies in Management Accounting. I am organized, adaptable, and committed to delivering quality work, whether independently or as part of a team, and I am seeking an entry-level opportunity where I can contribute and continue to grow professionally.
